

2026 SUSTAINABILITY REPORTING INDEX

ABOUT THIS DOCUMENT

2026 Sustainability Reporting Index

NBN Co's sustainability disclosures are guided by recognised global sustainability reporting frameworks and standards such as the Global Reporting Initiative (GRI) Standards, and Sustainability Accounting Standards Board (SASB) Telecommunications Services Sustainability Accounting Standard.

This index provides a guide on where to find information on NBN Co's sustainability disclosures, including material sustainability topics, in the Company's Annual Report 2026 or other publicly available documents on the NBN Co website, as related to the GRI Standards and SASB Telecommunications Services Sustainability Accounting Standard reporting disclosures. How NBN Co's actions map to relevant UN SDG targets is also included.

This is the sixth year that NBN Co has referenced GRI Standards and outlined how the SASB Telecommunications Services Sustainability Accounting Standard has been applied in reporting. As part of the Company's approach to maturing sustainability disclosures, NBN Co will evolve future reporting where appropriate.
